Port of Antwerp-Bruges - Yearbook of statistics - 2

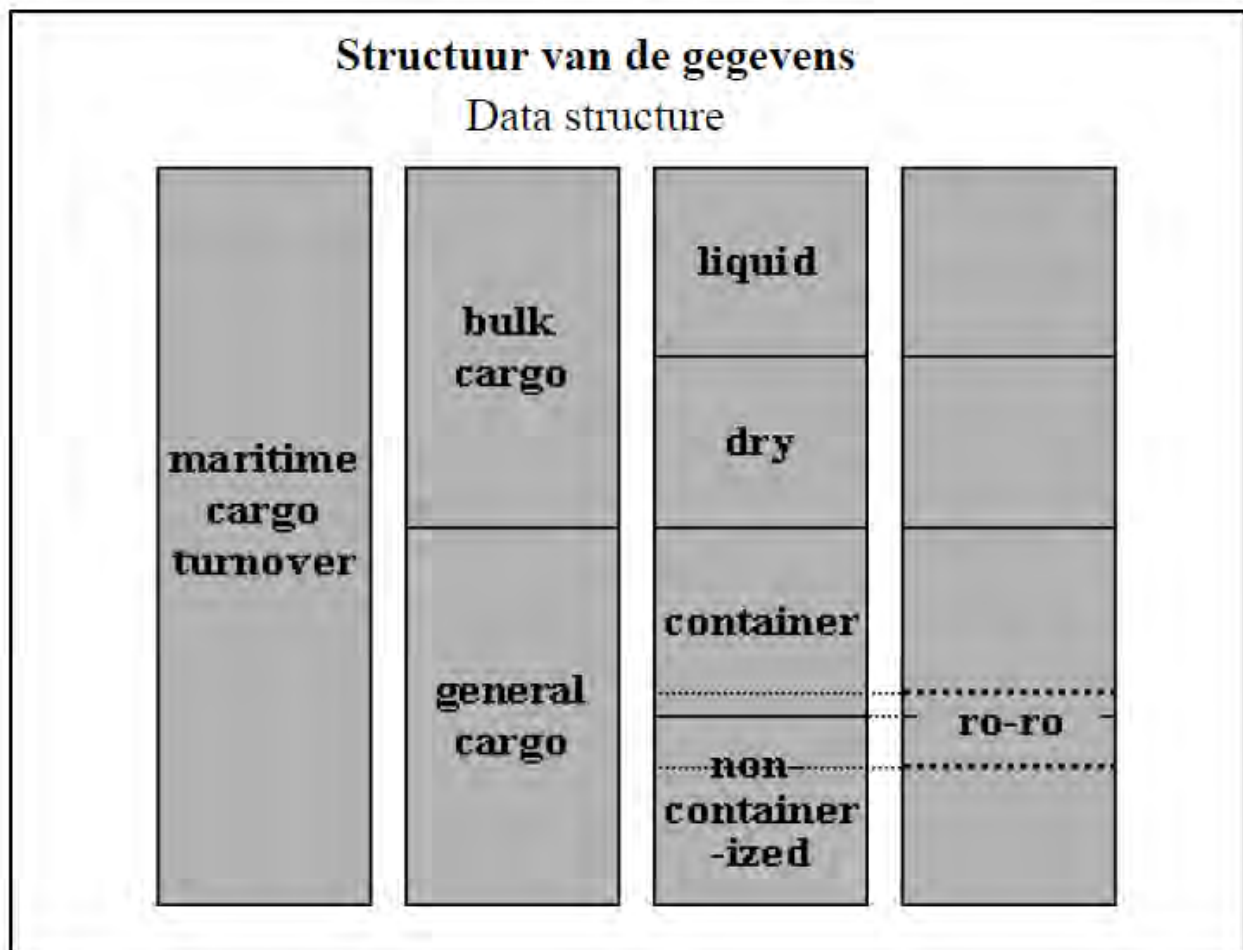

On April 22nd 2022, Port of Antwerp and Port of Zeebrugge merged and continue from then on under one name: Port of Antwerp-Bruges.

Consequently joint statistics on the two port platforms will be published from Q2 onwards.

Although both port platforms were still operating separately at that time, the 2021 figures of both port platforms were added together in this publication, for comparison purposes with the 2022 figures.

Please note that :

- all turnover figures are expressed in tonnes of 1,000 kg, unless stated otherwise;
- "0" means that the turnover is zero tonnes;
- "n.b." means that the traffic was not counted or that the figure is not available;
- source of the figures = Port of Antwerp-Bruges, unless stated otherwise
